Curriculum planning
Our curriculum is arranged in a spiral way to caters children's physical and mental development with a focus on Bi-literacy and Tri-lingualism; Our theme, picture-book and project-based teaching approach helps the children broaden their learning experience across six major areas, and cultivate their creativity.
We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.
Learning / Teaching approach & activities
Our curriculum uses picture books-based, life themes-based and general knowledge learning, approach to empower children to participate in their own learning. With freeplay, outdoor visits, scientific experiments, dramas, stories, etc., we encourage children to explore and to learn and gain more diverse experiences at the same time. To emphasize biliteracy and trilingualism, we provide English and Putonghua classes. We also incorporate different English and Putonghua activities to extend the learning experiences.
