	- (full - day)	Joining Child Care Centre Subsidy Scheme	No
Providing occasional child care services	No	Providing extended hours services	No

Curriculum Details

Curriculum type : Local

Curriculum planning

Focusing on child-centredness, our curriculum places emphasis on developing children's knowledge, skills, values and attitudes. The curriculum involves six learning areas, providing all-rounded, balanced and appropriate education, while at the same time nurtures children's development in Moral, Cognitive and Language, Physical, Affective and Social, as well as Aesthetic. We aim to provide appropriate care to meet children's development on growth, ability, interest and experience. We respect the individuality of each child and will exercise flexibility in teaching. Special subject teachers will be arranged to hold activities on biliteracy and trilingualism.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Our curriculum focuses on the needs of children. We aim at nurturing children's interest in learning, emphasizing on developing their biliteracy ability. Our curriculum includes different learning themes, initiating children to solve problems and to explore through stories, cultivating children's creativity, which in turn enriching their learning experiences. Our classes will involve both indoor and outdoor activities. Classes will come in different forms, providing picture books learning and online parent-child reading programme. Through English / Chinese book recommendations and giving reading guides to parents, we promote reading culture and foster children to love reading at an earlier stage. Various interest corners has been set up in classrooms. Through learning with five senses, children can explore new knowledge through games and activities. By cooperating with HighScope group learning, children will gain knowledge through "plan, do and review" which cultivates them as active learners.

Assessment of children's learning experiences

We adapt both formative and summative assessments, which include reports on knowledge, skills, values and attitudes. Through daily observation and different teaching themes, teachers can assess children's continuous development and will provide reports on picture book activities, behavioral observation and work analysis. Assessment reports that summarize children's overall learning development will be distributed twice a year. Learning Portfolio with all reports and photos of children in various learning activities will be distributed.

School Characteristics

School vision and mission

We aim to provide all-round quality services and strive for continuous improvement. We endeavour to foster all-round development for children through a balanced curriculum in the domains of Moral, Cognitive and Language, Physical, Affective and Social, and Aesthetic, to lay foundation for whole person development.

Support to students

Teachers and school social workers will observe children's behaviour regularly to offer help and care when required. Accommodation classes will be held for new students and parents. Primary school visits will be arranged for children to prepare for their new school life.

Support to non-Chinese speaking (NCS) students

Teachers will help NCS children in various ways to deepen their knowledge in social environment, facilities and local culture. We will design games to enhance their motivation on using Chinese language and to enforce their listening, speaking, reading and writing skills.

Support to students with special needs

Joining the On-site Pre-school Rehabilitation Services. We respect the diversity of children and by joining services to support children's learning and development. Qualified and experienced teachers will keep in touch with parents to care for children's health and growth.

Link with parents

Parent-teacher association : No

Other activities / communication with parents

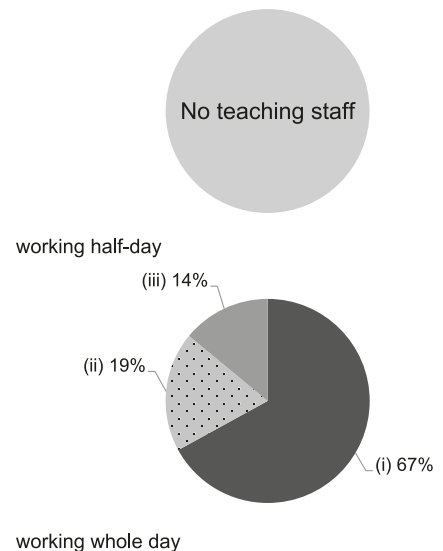

Parents can have a better understanding of our mission through parent meeting, class observation and seminar. We will contact parents and collect their opinions by phone and interviews. Online communication will be used and will invite parents of alumni to join school activities to share their experience.
