Curriculum Details

Curriculum type : Local

Curriculum planning

We arrange a rich, diverse range of learning activities based on children's physical and mental development, ability and interest.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

In order to create a pleasant learning environment, an integrated mode of learning is used, i.e.) group learning, self-choice learning corner, real-life learning, projects, life education and outdoor visits. We hope to stimulate children's thinking and their enthusiasm to learning through observation, exploration and interactive participation.

Assessment of children's learning experiences

Continuous observation and recording of children's learning achievements, including in the form of children's learning and development reports, children's learning portfolios, as well as thematic learning assessment, etc.

School Characteristics

School vision and mission

In the love of Jesus Christ, we, as a non-profit organization, strive to create an environment that is suitable for children's growth and constructive to their balanced development in physical, intellectual, language, social, emotional and spirtual areas.

Support to students

Adaptation period for new entrants, adaptation activities for students entering Primary One, and working together with Lutheran Church service units in the district to conduct two large-scale community events each year. School social worker, regularly meetings for children group, parent-child activities.
