Curriculum planning	
<p>To enable children to acquire different life experiences through learning, our curriculum is designed with a view to gear to individual needs, to inspire children's creativity, and to cultivate observation ability through a diverse range of aesthetic elements. Continuous assessment and photographs are adopted to show parents the learning progress of their children.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The kindergarten implements "Thematic Teaching Approach". The activities are designed according to children's life experiences, learning needs and integrated with multiple learning areas. The kindergarten adopts "Learning Through Play" as the strategy under the selected themes. Children have the opportunities to take their initiations and exploration in learning through play. Meanwhile, the kindergarten promotes children's language development through "Biliteracy and Trilingualism" teaching activities.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We use multiple intelligence learning areas for children to extend concepts and to strengthen skills. In accordance with children's developmental pattern, we put them into the learning track at the right time and for the suitable level.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>In accordance with children's interest and ability, we integrate the elements of every subject to provide diversified activities. We also want our children to learn through play. We believe that free play activities enable children to be independent and take leadership in the activities that they would love to do. Free play also benefits the child as it is sustained with adult interference. We incorporate the teaching of arts for children to learn actively, work together and acquire knowledge through touching, observation, discussion, study, exploration, Corner Learning in groups, etc. The kindergarten features "the arts-based teaching approach for cooperative learning that forms the Corner Learning", which is a school-based characteristic.</p>	
Assessment of children's learning experiences	
<p>We use children's learning portfolios, combined with unit learning assessment, anecdotal records and development areas of multiple intelligences, to continuously observe, record and assess children's learning effectiveness.</p>	

School Characteristics	
School vision and mission	
We strive to develop multiple intelligences and potential, to cultivate creativity and initiative to learn.	
Support to students	
<p>We arrange parent-child games sessions for new students to help children get familiarized with the new environment; provide assessment and logging for children with special needs; take the graduating children to visit primary schools to enhance their understanding of the modes of study and their adaptability. Provide and support education services for non-Chinese speaking (NCS) parents and students. The school will provide support service, specifically designed for SEN kids.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs	
Joining the On-site Pre-school Rehabilitation Services.	
Link with parents	
Parent-teacher association : Yes	
Other activities / communication with parents	
<p>We organize regular interactive talks for parental education, meetings with individual parents, and invite parents to the kindergarten to help with various learning activities for children, parent-child creative work and outings, life information collection and exchange, exhibition of works, Parent Teacher Association parent-child interest class and parent's talent class, PTA community visits, parent communication handbook, etc.</p>

Curriculum planning	
<p>According to the EDB's Guide to Kindergarten Curriculum, we compile our integrated curriculum based on six learning areas and adopts theme & project approach. We encourage children to learn through play and nurture them to attain comprehensive and balanced development in the areas of intellect, language, aesthetics, emotion, social and physical skills.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>According to children's developmental abilities, needs and interests, we adopt games, Putonghua and English activities to foster children's own initiative to learn. Children acquire new knowledge through pretend play, games, art making, visit, character practice, exploration and discovery. We strengthen the cultivation of children's character and positive emotions in co-operation with families. It encourages the children to develop good character and life value.</p>	
Assessment of children's learning experiences	
<p>Through theme, small group, musical and physical activities, we continuously observe and record children's learning progress and release children's learning and growth information to parents based on each theme. Each term, we send a learning portfolio of each child to parents, attached with the child's photos, words and artwork, so that parents could understand their children's learning progress at school.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our characteristic curriculum is formulated with reference to the Education Bureau's guide to curriculum 2017 and takes into consideration children's development, interests and abilities so as to provide children with rich learning experiences. 'Integrated life-themed course' - Personal experience is emphasized for learning through games. Appropriate activities which cater for children's needs and attributes are arranged to foster the right attitude in children, practical skills and knowledge. 'Special course on bi-literacy and tri-lingualism' - Group teaching and focus learning are adopted to promote children's language development; 'Project Approach' - Topic studies are adopted to foster voluntary exploration and problem-solving ability. Listening and oral communication skills are enhanced through teaching. 'Corner group learning' - To stimulate children's creative thinking and promote interpersonal relationship;</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Various teaching approaches including 'thematic approach', 'topic studies', 'group teaching' and 'corners' are adopted to arouse children's learning interest, curiosity and their creativity and stimulate them to think. Though the "Pair reading" and the "Family Wellness Vitamins" Program are adopted to enhance children's autonomous learning ability and language ability. Holistic development in moral, intellectual, physical, communal, artistic and spiritual aspects is promoted through various types of activities and learning arrangements.</p>	
Assessment of children's learning experiences	
<p>We record children's learning performance, learning outcome and the journey of development through ongoing observation. Relevant information is collected through observation in actual learning environment for record and analysis. It is kept in the children's profile of learning development.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The school compiles the curriculum according to the "Kindergarten Education Curriculum Guide" of the Education Bureau, allowing young children to develop children's spiritual, ethics, intellect, physique, social skills and aesthetics qualities through games and personal experience. Our school uses Chinese as the daily language. In recent years, it has devoted itself to implementing environmental education and religious integration courses.</p>	
<p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our school is led by specialist teachers to lead English interest activities, and a non-Chinese language learning group is set up to allow non-Chinese speaking children to learn Chinese in an interesting way.</p>	
Assessment of children's learning experiences	
<p>Teachers comprehend children's learning progress and their physical and mental development through continuous observation and logging. Teachers then let parents understand their children's learning situation through distribution of assessment reports, meetings and class observations at various time intervals. The school also takes these opportunities to collect parents' feedback. Finally, we use the Child's Growth Portfolio for the final report.</p>

School Characteristics	
School vision and mission	
<p>School located in Yung Shue Wan, Lamma Island, surrounded by flowers and trees, vast outdoor spaces, children are in touch with nature and participate in outdoor activities in their daily learning. Students come from different countries around the world, get along well on a multicultural campus, enjoy a joyful group life, learn to respect the Lord and love others, care about the community, appreciate and cherish the beautiful things God has created for us.</p>	
Support to students	
<p>We provide activities for new students before a new school year starts so that they could get familiarized with the environment through participating in the activities with their parents. Besides, teachers keep track of children's learning progress through assessment records and observation so that we could provide suitable support to meet individual children's needs.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>

Curriculum type : Local	
Curriculum planning	
<p>Our school adopts a child-centred curriculum that aligns children's living environment, experiences, interests, and developmental characteristics at different stages; thus, achieving the goal of holistic development. Additionally, moral education is integrated into the curriculum to foster positive values in children.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our school arranges story-based teaching activities in the small groups. Learning activities such as simulation games, exploratory activities, visits, creative activities and gardening activities are designed in accordance with children's developmental characteristics, interests and abilities. This further allows children to learn through interacting with the environment as well as with their teachers and peers. All classrooms are equipped with audio-visual equipment in order to facilitate interactive multimedia learning.</p>	
Assessment of children's learning experiences	
<p>Four assessments are conducted each academic year through continuous observation in order to record children's learning progress and growth, this allows children to recognize their strengths and understand directions for improvement. Moreover, learning portfolios with feedback from teachers, samples of children's work, and event photos, are prepared to record and analyse children's competence. Consequently, this allows teachers and parents to gain a better understanding of children's development.</p>	

School Characteristics	
School vision and mission	
<p>Our school strives to contribute to pre-primary education services by providing children with excellent learning environments, aiming at delivering whole-person education through parent collaborations.</p>	
Support to students	
<p>An adaptation week before school starts and other measures are arranged for new students in order to allow them to gradually adapt to the school environment. Alternatively, primary school life stimulation activities and primary school visits are held for K3 students. With the support of school-based social workers, we also seek to offer effective assistance for children with special needs.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; arrange interpretation / translation services; engage NCS parent volunteers to enhance communication between school and parents; create an enriched language environment for mastery of the Chinese language; create an inclusive learning environment to facilitate students' integration; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese; participate in school-based professional support programmes organised by EDB.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>	
Link with parents	
<p>Parent-teacher association : No</p>	
Other activities / communication with parents	
<p>Our Home-school Cooperation Group regularly organises parent-volunteer gatherings, parent-child activities, parent talks and class observations. Parenting advice and counselling services are provided by school-based social workers through a variety of sittings such as one-on-one meetings, talks, and workshops.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>The school adopts "Whole Brain Development" learning model to enhance the child's self-learning spirit by different sensory learning elements. Students learn through their daily life experience and teacher-student interaction. Also, by children's personal exploration, children can develop multiple intelligence, common ability and good living habits. We believe that through thinking, asking questions, trial and error, experience, communication and participation, students can effectively develop their mind. The school helps children to build a good character in the life education.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>The school takes "Going off campus-Living learning" as the main line. The learning content combines with students' life experience. Through physical coordination, visual and touch, life skills and spiritual care, the school stimulates the logical thinking and all-round development. The course includes different practical studies such as: Native English and Putonghua teachers, using games as a strategy to enrich the language context, barbecue activities, snack tasting, scientific exploration, visits, etc., so that students can learn from their first experience, develop in a balanced manner, enhance their ability to learn independently through different learning elements and build a good foundation for their growth.</p>	
Assessment of children's learning experiences	
<p>Continuous observation and assessment system has been established to provide children developmental assessments in various areas and promote holistic development in children mind and body.</p>	

School Characteristics	
School vision and mission	
<p>In the spirit of Christ's love, the school emphasises the whole-person education and provide an ideal and quality learning environment for children. Acts as a partner with families and communities, train staff to grow in their personal and professional lives. Let children develop in a balanced manner in aspects of emotions, social, language and intelligence.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>Our child-centred curriculum focuses on biliteracy and trilingualism and integrates education of 6 domains, namely ethics, intellect, physique, social skills, aesthetics and spirit. The curriculum allows flexibility and sufficient learning space for children, so as to inspire children to think and to encourage them to play to their potential.</p> <p>We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.</p>	
Learning / Teaching approach & activities	
<p>Our school adopts an integrated activity approach to our teaching. Our child-centred teaching allows children to learn through play and helps them develop social skills and team spirit. We teach students according to their abilities, to help them reach their potential. For various themes, we take the children to visit different places for on-site teaching so that they can acquire knowledge from actual experiences. Each week, native speakers will teach English and Mandarin to help the students learn these languages in a natural and enjoyable atmosphere. Each level will be suitable to the abilities of the students (K1, K2 and K3). Various teaching methods will be employed to ensure an interesting and pleasant teaching environment. The goal is to produce a tri-lingual student that is comfortable using three languages when needed. We also have various teams like Seedlings of Christ and Happy Bee to foster children's ethics and team spirit. By joining these teams, children get the opportunity to serve the community and to develop a positive outlook on life.</p>	
Assessment of children's learning experiences	
<p>Through assessment of continuous observation, bimonthly reports on the Chinese and English languages and the child's development portfolio, we let parents comprehend their children's development and learning situation.</p>	

School Characteristics	
School vision and mission	
<p>Our Vision: Upholding Christ's love and following the example of the Blessed Virgin Mary's kindness and reverence for the Lord, we foster children to cherish life and to have positive outlook on life.</p>	
Support to students	
<p>For new student adaptation, the kindergarten arranges new students' play day and new student adaptation period within different times of student admission. For other current students, the kindergarten arranges talks for primary school admission, visits, in-school primary school life simulation, seminars and referral services to provide support to children and parents in need, all according to different themes and time intervals. For transition from kindergarten to primary school, school sponsoring bodies have created a "Through-train" for Catholic schools in Tung Chung. Through close collaboration between the schools, children may have a smooth transition to primary school, adapt to new learning environment and accept the challenges.</p>	
Support to non-Chinese speaking (NCS) students	
<p>Received Grant for Support to NCS Students; appoint additional teaching staff / teaching assistants to support NCS students learning Chinese; facilitate professional development for teachers to develop effective strategies to help NCS students learn Chinese.</p>	
Support to students with special needs	
<p>Joining the On-site Pre-school Rehabilitation Services.</p>

Curriculum Details	
Curriculum type : Local	
Curriculum planning	
<p>We offer international and bilingual curriculum -- Putonghua and English classes. We follow the EYFS curriculum. All of the learning encompasses three important elements – knowledge, skills and manners. We nurture children to attain all-round development in the domains of ethics, intellect, physique, social skills and aesthetics, so as to lay a good foundation for them to pursue studies at local primary schools or international schools.</p>	
Learning / Teaching approach & activities	
<p>With teachers' guidance, children learn self-directed learning, independent thinking, self-discipline, coordinating with others, a considerate and moving heart, etc.</p>	
Assessment of children's learning experiences	
<p>We use continuous assessment with Early years foundation stage targets. Teachers analyse children's ability and performance objectively through observation and logging. In accordance with the curriculum and teaching design, teachers may also set assessment objectives and specific content to choose from, such as behaviour index, anecdotal records, brief extracts of conversations with the child, etc. Through daily observation, record and analysis, we assess children's learning and development situation in the kindergarten.</p>	

School Characteristics	
School vision and mission	
<p>We strive to instill in our children a Worldly Perspective; we focus on nurturing the Creative Minds of our students; we ensure our children enjoy a Caring Environment as if they were at home; and we hope our graduates leave our school with a Happy Soul.</p>	
Support to students	
<p>Through activities for parent education and usual communication, we help parents understand their children's growth characteristics and needs, parents' duties, skills for dealing with their children, strategies for helping children learn and for assisting their growth, including handling issues like primary school adaptation and transition from kindergarten to primary school.</p>	
Support to non-Chinese speaking (NCS) students

Parent-teacher association : Yes	
Other activities / communication with parents	
<p>The school encourages parents to participate in volunteer work to help the school carry out activities. It is helpful for parents to develop a sense of belonging towards the school. Activities that help parents to understand our curriculum: parent-child reading, material collection, production of sculptures and paintings, etc. These activities not only help parents set reasonable expectations for their children, but also enhance parent-child relationship, make learning become more coherent, interesting and effective. The once-a-term teacher-parent meeting week strengthens the parent-child communication and relationship. We organize various parent-child activities, such as parent-child outings, parent-child Christmas Carnival, new students' parent meetings, parent meeting for curriculum introduction, parent volunteers, parent-child sports day, charity walk, open day, etc.</p>

<p>ESF Tung Chung International Kindergarten offers an English medium education for children aged 3 to 5 years. The school is an International Baccalaureate (IB) World School offering the IB Primary Years Programme. IB World Schools share a common philosophy - a commitment to high-quality, challenging, international education - that we believe is important for our students. The learning environment is rich and engaging and children are encouraged to learn through inquiry and hands-on experiences. The programme reflects the kindergartens' PYP curriculum being planned around units of inquiry and is structured upon principles of good early years education. Early literacy and numeracy are integral to the programme. Mandarin Chinese is the specialist language and is integrated into the programme, forming a core aspect of the curriculum.</p>	
Learning / Teaching approach & activities	
<p>The kindergarten caters for K1 and K2 children aged 3 to 5 years who attend for three hours a day, for either a morning or an afternoon session. The kindergarten offers safe and spacious learning environments which are designed especially to meet the needs of young learners. They are all well-resourced with age-appropriate equipment and materials, and modern teaching and learning technology.</p>

<p>We recognise and appreciate the unique role that parents play in their child's education and actively encourage parents to be fully informed about their child's progress and to participate in their kindergarten. We aim to establish a close link between home and school. Outings, excursions, workshops and parent volunteering are different ways for parents to participate in the kindergarten programme and to meet with teachers and other families. Parents are kept informed about what their children are learning, how to help at home, and how their children are progressing during the year through various methods of communication between home and school.</p>

Curriculum Details	
Curriculum type : Non-local	
Curriculum planning	
<p>The school follows the Early Years Foundation Stage (EYFS) curriculum using the Montessori teaching method. The EYFS curriculum follows the principles with which Montessorians are very familiar with and have been advocating for over a hundred years: that the child is unique; that positive relationship form the basis for personal respect supporting learning; that the learning environment has a key role in extending learning and development, and that children learn and develop in different ways and at different pace.</p>	
Learning / Teaching approach & activities	
<p>The school strongly believes that each child's learning is intrinsically linked with child development and that it is not possible for a child to learn until they are ready. This readiness vary from child to child. The learning and development approach takes into account the fact that children develop and learn in different ways and at different rates and that ALL areas of learning and development are interconnected and are equally important in contributing to a child's development. The environment plays a very significant part in our school. There are six clearly defined areas in the classroom. Each of these areas have Montessori's original designs and activities made and prepared by the Montessori directness to help each child develop skills and learn concepts. These activities are easily accessible to the children, promoting repetition and practise of targeted skill which each material is designed for. Outdoor activities are also done on a regular basis.</p>	
Assessment of children's learning experiences	
<p>Our school provide learning opportunities for mixed age groups of children. Emphasis is placed on children learning spontaneously by independently selecting activities appropriate for their learning and stage of development. Observation and evaluation are carried out on a daily basis. Assessment results are observed, tested and recorded through the various activities and materials used by each child. Observations are recorded on the children's individual learning plan (Individual record of Achievement). Observations are analysed and serve as a basis for future planning for individual children as stated above.</p>	

School Characteristics	
School vision and mission	
<p>Montessori holds that the most vital role of infancy and the very first period of a child's life is that of adaptation. It is this that provides a child with the ability to adapt to his environment, whatever the condition when he entered it". For this Montessori claims "... that the ontogenesis of man is an adaptive one; to construct a model of behaviour which renders him free to act in the world about him, and to influence it" (Montessori (1949), page 60). The schools mission is to acknowledge the importance and appreciate the extent to which adults influence and the environment can impress itself on children. We recognize the significant role we play in developing the child's full potential and development and ensure that utmost care is taken to provide a suitably loving and caring learning environment for each child in our care in all areas of development to prepare them for life.</p>

<p>We are a very small community school, as such, relationship between Parents and Staff are very informal. Communication and update about the children are done on a daily basis or as when necessary and immediate. The school is treated almost like a second home by the children and act as such.</p>
